Les Entretiens Européens 2018

Rapprocher - Débattre - Fraterniser

The management of spent fuel and nuclear waste in Europe Solutions exist, they must be implemented

October 18, 2018 - Paris

8:30 am to 6:30 pm

European Commission

288 boulevard Saint-Germain
75007 - PARIS

With the support and the participation of:

- The science and the atom. The scientific challenges of nuclear waste management in Europe
- How to promote the implementation of national plans and help countries lagging behind?
- What solutions for a responsible and optimized management of used fuels?
- The costs of nuclear waste management. Realities according to the types of waste and their impact on the price of energy.
- Innovation in the dismantling waste storage and recycling industry
- European and international cooperation
- The European dimension of the public debate and memory duty

8:30 am

welcome

9:00 am

Opening

The 16th edition of Les Entretiens Européens

- **Claude Fischer-Herzog**, Director, ASCPE

The science and the atom.

The scientific challenges of nuclear waste management in Europe

- **Bernard Boullis**, Advisor to the High Commissioner for Atomic Energy, France

9:30 - 11:00 am

1st Round table

Don't wait. How to promote the implementation of national plans and help countries lagging behind?

Chaired by **Berta Picamal**, Executive advisor to the Director General, Foratom

with:

- **Eva Hižová**, Nuclear Safety Inspector, Radwaste and Nuclear Facilities Decommissioning Department, UJD - *The role of safety authorities in nuclear waste management authorization processes. The case of Slovakia*

- **Tuomo Huttunen**, Senior Advisor, Nuclear Energy, FINNISH ENERGY - *The most radio-active waste disposal in Finland*

- **Stephan Lechner** – Director EURATOM - European Commission - *National action plans: where is the implementation of the European directive?*

- **Matthieu Mangion**, Deputy Director, Safety, Environment and Sector strategy, ANDRA - *Nuclear waste: inventory and types of solutions*

11:00 - 11:30 am

coffee break

11:00 - 1:00 pm

2nd round table

What solutions for a responsible and optimized management of used fuels?

Chaired by **Daniel Iracane**, Deputy Director-General and Chief Nuclear Officer, NEA, OECD

with:

- **Nathalie Allimann**, Executive Vice President back-end sales - ORANO – *The treatment/recycling of spent fuel, a technological reference asset to reduce risks and improve flexibility*

- **Koji Hasegawa** - Directeur du Bureau de Paris, KEPCO - *Japan's choices for spent fuel management*

- **Robert Leclere**, President of the Belgian Nuclear Forum - *The future of the MOX industry in Belgium and in Europe*

- **Jan Wieman**, Fuel Cycle Manager - *Recycling and storage in the Netherlands*

1:00 - 2:00 pm

lunch

2:00 pm

Hearing

Economic issues: the costs of nuclear waste management. Realities according to the types of waste and their impact on the price of energy

- **Jacques Percebois**, Professor Director of CREDEN

2:30 - 4:00 pm

3rd round table

Innovation in waste storage and disposal; and in recycling industry

Chaired by **Saïd Abousahl**, Head of Unit Euratom Coordination, Joint Research Center, European Commission

with:

- **Christophe Béhar**, Energy Director, FAYAT GROUP, President of GIIN (Inter-Union group of nuclear energy) – *Innovations in the construction of waste management centers*

- **Sylvain Granger**, Director of DP2D, EDF – *Deconstruction: towards a new waste recycling industry?*

- **Jana Jirickova**, Vice-President of CENEN and teacher at the University of Plzen, organizer of the NUCLEAR DAYS in the Czech Republic, – *Social ownership of technological issues for waste nuclear management*

- **Gérard Longuet**, President of OPECST, Parliamentary Office for Scientific and Technological Options - *The CIGEO project in France.*

4:00 - 4:30 pm

coffee break

4:30 - 6:00 pm

4nd round table

European and international cooperation

Chaired by **Irena Mele**, Consultant, Fuel Cycle and Waste technology Division, Nuclear energy department, AIEA

With

- **Dr Thilo von Berlepsch**, International Relations, BGE TECHNOLOGY GmbH, Germany must manage its waste. *Which progress and how is it cooperating with other European countries?*

- **Sylvain Granger**, Director of DP2D, EDF – *The international cooperation in Reliable Nuclear Fuel Services*

- **Andrey Rozhdestvin**, Director, Rosatom Western Europe - *How does Russia cooperate with European countries? How to build a European industry?*

- **Gerzson Szalay**, Brussels Representative, MVM Hungarian Electricity Ltd - *Share the costs of managing nuclear waste : should we build common centers?*

6:00 - 6:30 pm

Conclusions

The European dimension of the public debate and memory duty

- **Claude Fischer-Herzog**, Director of ASCPE

- **Isabelle Harel-Dutirou***, President of the CPDP, Special Commission of Public Debate in France

- **Stephan Lechner**, Director EURATOM, European Commission

- **Cécile Massart**, Sculptor Researcher
